Jonas L. Kaufman

Materials Department
University of California, Santa Barbara
Santa Barbara, CA 93106

jlk@ucsb.edu
jonaskaufman.com

Education

University of California, Santa Barbara
Ph.D. Materials — 2017–Present
Advisor: Prof. Anton Van der Ven
GPA: 4.0

Harvey Mudd College
B.S. Physics — 2013–2017
Graduate with High Distinction, Departmental Honors in Physics and Humanities
GPA: 3.9

Research Experience

University of California, Santa Barbara — Sep. 2017–Present
Graduate Student Researcher
Studying materials for "beyond-Li-ion" batteries using first-principles statistical mechanics methods

Lawrence Livermore National Laboratory — Jun. 2019–Sep. 2019
Academic Cooperation Participant
Molecular dynamics simulation to probe non-equilibrium properties of hydrogen storage materials

Sandia National Laboratories, Albuquerque — Sep. 2016–May 2017
Harvey Mudd College Physics-Engineering Clinic Team Member
Finite element modeling of ceramic nanoparticles in composites for capacitor applications

UNSW Sydney, Australia — May–Aug. 2015, 2016
Materials Science Research Assistant
Atomistic modeling of mechanical properties to aid development of multicomponent metallic alloys

Awards

U.S. Department of Energy Computational Science Graduate Fellowship — 2017–Present

Jon A. Wunderlich Prize for Creative Achievement in Physics, Harvey Mudd College — 2017

Barry M. Goldwater Scholarship — 2016–2017

Jude and Eileen Laspa Fellowship in Applied Mechanics, Harvey Mudd College — 2015–2017

National Merit Scholarship — 2013–2017

Publications

8. **J. L. Kaufman** and A. Van der Ven. Antiphase boundary migration as a diffusion mechanism in a $P3$ sodium layered oxide. *Physical Review Materials* 5, 055401 (2021). Editors' Suggestion.

Presentations

3. **Materials Research Society Spring Meeting**. *Hierarchical intercalant orderings in layered oxides for Na- and K-ion battery electrodes*. Apr. 21, 2021. Virtual.

2. **Gordon Research Conference: Batteries**. *Modeling structural evolution in layered cathode materials for Na- and K-ion batteries*. Poster. Feb. 17–18, 2020. Ventura, CA.

1. **Materials Research Society Spring Meeting**. *Structural phase transitions and intercalant ordering in layered Na- and K-ion cathode materials*. Apr. 23, 2019. Phoenix, AZ.

Teaching

University of California, Santa Barbara Sep.–Dec. 2018
Materials Teaching Assistant
Teaching assistant for *Introduction to Quantum Mechanics for Materials* (MATRL 289A)

Harvey Mudd College May 2015–May 2017
Physics Academic Excellence Program Facilitator
Lead tutoring workshops for students in Special Relativity, Mechanics and Electromagnetism courses
